Dear Craig,

I just wanted to thank you for providing ePartners, Inc. with a quality work and a happy client. S2 Technology recently help two of our clients in implementing Frx Forecaster. S2 worked with our clients Himms and PCMA out of Chicago, and feedback from our clients were very positive towards the services that they provided. It is clear based upon our customer feedback that S2 has a strong level of knowledge with Frx Forecaster, and develops an excellent rapport with the client while onsite. We appreciate S2's professionalism and commitment that they bring to each engagement.

I am pleased that we were able to work together on these two engagements and am thankful for your quick response to our needs. I have already shared our experiences with other's inside of ePartners and encouraged them to contact you should the need arise, and would recommend your company to any future prospects. I look forward to a strong relationship with your company and look forward to working with you in the future.

Thanks
